

# Your First 90 Days in Cayman

A simple roadmap for settling in smoothly — by Anna-Mari Ormond

## **Week 1–2**

Get oriented: temporary accommodation, transport, and your essential admin list. Don't try to do everything at once.

## **Month 1**

Lock in housing, start building your local service network, and create a sustainable routine (especially if you're moving with family).

## **Month 2**

Refine your location preferences and revisit the rent vs buy decision with better context.

## **Month 3**

If you plan to purchase, this is a great time to narrow your shortlist and move decisively when the right option appears.

## **Local introductions**

When needed, I can connect you with cost-effective, reliable third-party providers to make the transition easier.
