

# Moving to Cayman

A practical guide for professionals & families — by Anna-Mari Ormond

## Before you arrive

A simple timeline: start exploring areas early, decide whether you'll rent first, and keep your search criteria realistic for the current market.

## Renting vs buying

Many newcomers rent first to learn the island. If you're buying, I'll help you compare neighborhoods, strata fees, and long-term value with clear trade-offs.

## Neighborhoods at a glance

Seven Mile Beach, George Town, South Sound, West Bay, Savannah and beyond — each with a different lifestyle and commute pattern.

## Family considerations

Schools, day-to-day logistics, and proximity to activities matter. We'll weigh what's most important for your family's rhythm.

## Working with me

I keep the process calm, thorough, and moving — with research, clear options, and introductions to trusted local service providers when helpful.
